

CHIRP - Bug # 1355

Status:	Feedback	Priority:	Normal
Author:	Agustin Torres	Category:	
Created:	01/07/2014	Assignee:	
Updated:	06/15/2020	Due date:	
Chirp Version:	daily		
Model affected:	RepeaterBook		
Platform:	Windows		
Subject:	Chirp does not populate the frequencies		
Description	<p>I have opened CHIRP (blank page) Click on Radio, select Query Database, RepeaterBook. Afile appears with all the headers however the frequencies are all 00000and all other date I assume the defaults such as:none,88.5 88.5 23 NN (None)etc. I have aslo tried it by</p> <p>I have tried downloading date for NM Albuquerque 70cm. Tried Texas EIPaso 2meter Also New Jersey 70 cm with the same results. The Radio us a UV 5R I do have the frequencies for Las Vegas because a fellow ham sent me his file I opened CHIRP clicked open and selected the file my friend sent me It opens 1 tab then I tried Radio, Query Data RepeaterBook the program opens another tab with the same results (no frquencies)I have also tried different CHIRP releases, right now I;m on the stable recommended. I have tried cliking New Radio etc a file appears with the tab called Generic CSV untitledcsv with 1 frequency on channel 0 146.0100 I then click on Radio Query RadioBook another tab appears called RepeaterBook: X with the same result 00000 on the frquencies.</p> <p>The debug log for the last one follows.</p> <p>I hope this helps thanks much.</p> <p>Gus</p>		

History

- Status changed from New to Feedback

You're listing towns, not counties. Can you please verify a specific county you have tried? If I select Texas, El Paso County, and 2m, I get 15 results.

#2 - 01/08/2014 08:35 am - Agustin Torres

I did itthat way. There is no way to select the city, you select the county.It is what I selected. Therein is the problem that a friend can download the frquencies to his spread sheet but it will not work on my computer. Are there any settings that must be checked etc? I sent the debug log, is there any findings in the log?

#3 - 06/15/2020 04:50 pm - Bernhard Hailer

- Target version set to chirp-daily

- Chirp Version changed from 0.3.0 to daily

- Model affected changed from (All models) to RepeaterBook

There were a number of updates on RepeaterBook and in Chirp since you posted this. Have you tried with a recent version?
