Add basic support for the Yaesu FT-8100

This is somewhat incomplete, but it works well enough to get my FT-8100 programmed. I'd rather share it as-is then let it bitrot on my laptop, because several users on the mailing list have asked about it.

I have a FT-8100R and may be able to contribute it for development. What is the process for sending the radio?

- *Equipment Loan Offered changed from No to Yes*

See [\[\[Rules for loaning a radio\]\]](#).

We'll also have to find a developer willing to take on the project.

- *Status changed from New to Closed*

- *Target version set to chirp-daily*

- *Chirp Version changed from 0.3.0 to daily*

The FT-8100 appears to have been added to Chirp.
