

CHIRP - Bug # 1665

Status:	New	Priority:	Normal
Author:	Rolan Clark	Category:	
Created:	05/29/2014	Assignee:	
Updated:	06/25/2020	Due date:	
Chirp Version:	daily		
Model affected:	Kenwood TM-D700		
Platform:	Windows		
Subject:	Kenwood TM-D700 will only allow freq change, not pl or others		
Description			
<p>A friend has a Kenwood TM-D700 and using his computer, or my laptop computer, both with Win 7, we can download all the data from the TM-D700 but we can only change the frequency. When we click on a ,say the pl tone, the line highlights blue, then right click then click on edit, the edit window appears we can select a new pl tone from the pull down window but when we click on OK we get an error window.</p> <p>The new pl number is in the line but the program is locked up. the same with any changes except the freq which works correctly.</p> <p>Attached is a .jpg of the error window and the debug.log from my Dell B130 laptop.</p> <p>Let me know of course if you need clarification or more info.</p> <p>Any help appreciated,</p> <p>73 de rolan w3fdk</p>			

History

#1 - 06/25/2020 04:21 pm - Bernhard Hailer

- Target version set to chirp-daily
- Chirp Version changed from 0.4.0 to daily
- Model affected changed from (All models) to Kenwood TM-D700

By any chance, have you tried this again with a more recent version? Thanks!
