

CHIRP - Bug # 1891

| | | | |
|------------------------|--|------------------|--------|
| Status: | Feedback | Priority: | Normal |
| Author: | Rick Highness | Category: | |
| Created: | 09/03/2014 | Assignee: | |
| Updated: | 05/01/2020 | Due date: | |
| Chirp Version: | daily | | |
| Model affected: | Yaesu FT-8800R | | |
| Platform: | Linux | | |
| Subject: | Unable to copy/paste memories on FT-8800R | | |
| Description | <p>Have an FT-8800R and wanted to duplicate the left side memories on the right side. Can do a CTRL-A and select all and then attempt a copy (either by pull down menu or by right clicking and selecting copy).</p> <p>But when I attempt to paste - (either by pull down menu or by right clicking and selecting paste), no paste. No joy.</p> | | |

History

#1 - 09/04/2014 09:41 am - Tom Hayward

I think this is a regression from #739.

It seems to only affect copying from one side of a radio to the other. It does not affect copying to and from other models of radio, or copying within one side of a radio.

A temporary workaround would be to paste everything into a CSV (Ctrl-N) or other radio, then copy the CSV, then paste back into the other side of the radio.

#2 - 12/28/2014 08:44 am - Brian Basura

Just wondering if any progress has been made on this? Thanks!

#3 - 02/18/2016 09:45 pm - Jon Blackwell

Another work around I found:

I was building a file for my friend with a FT-8800 and could not copy from one side to the other. I had done so previously as I also have a FT-8800. I saved his file with only one side containing any repeater info. I then opened up his file so that both tabs contained the same file. I could then copy from the right side of one file to the left side on the other file. Re-save and you have a complete left and right file.

- Status changed from New to Feedback
- Target version changed from 0.4.1 to chirp-daily
- Chirp Version changed from 0.4.0 to daily
- Model affected changed from (All models) to Yaesu FT-8800R

Is this still an issue with current versions of Chirp? Thanks!
