

## CHIRP - Bug # 2207

<b>Status:</b>	New	<b>Priority:</b>	Normal
<b>Author:</b>	Lorne Anderson	<b>Category:</b>	
<b>Created:</b>	01/15/2015	<b>Assignee:</b>	Lorne Anderson
<b>Updated:</b>	01/15/2015	<b>Due date:</b>	
<b>Chirp Version:</b>	0.4.0		
<b>Model affected:</b>	FT-8800R		
<b>Platform:</b>	Windows		
<b>Subject:</b>	FT-8800R Upload Programming Issue		
<b>Description</b>			
<p>I was successful in downloading from the radio as per the instructions within Chirp and saved the file then made changes. I did the correct upload procedure as per the Chirp program and also the settings required on the FT-8800R radio. The file uploads fine and the icon showing the status on the software does work with no errors.</p> <p>The problem is the FT-8800R (when upload of file is completed)display shows CLONE. Now how do I get out of the CLONE RX menu so it saves the completed uploaded file? I if just turn the radio off then it just reverts back to your original programming before you made any changes to upload.</p>
