History

#1 - 05/07/2015 11:05 am - Tom Hayward

- Tracker changed from Bug to New Model
- Subject changed from tera radios to Tera TR-590
- Status changed from New to Blocked
- Equipment Loan Offered set to No

I don't know of any devs who have access to a Tera TR-590. This will have to wait until a dev is loaned or purchases one.

I'm about to order one of these and would be happy to loan it to get CHIRP running - let me know what you need me to do.

#3 - 06/26/2015 12:15 pm - Chris Kantarjiev

Received mine today. I'm going to play with the manufacturer's software, but would love to help get this working with CHIRP.

#4 - 07/16/2015 10:37 am - Chris Kantarjiev

Mine is here and working with the manufacturer's software and available for loan to a dev to get CHIRP going on it.

I'd be interested in seeing this up and running with CHIRP, too.

#7 - 08/19/2015 10:59 pm - Aaron Codino

Was wondering if there is any update of CHIRP supporting the TR-590? I just got one and would love to use CHIRP with it

#8 - 01/22/2018 11:05 am - Chris Zurenko

I may soon be in the market for a new TR-590 and will have no immediate use for it. I would love to see it offered as a model supported by CHIRP. I have also reviewed Ticket #2775, so it seems that a developer never got their hands on this radio? Please reach out to me regarding the current status of this ticket and information regarding loaning to a developer. Thanks!
