

CHIRP - Bug # 3867

Status:	Closed	Priority:	Normal
Author:	Mehmet AKTAS	Category:	
Created:	07/29/2016	Assignee:	
Updated:	04/21/2020	Due date:	
Chirp Version:	daily		
Model affected:	Baofeng UV-5R		
Platform:	Windows		
Subject:	BFB297 Baofeng UV -5R does not send the Relay .		
Description			
<p>Hello, I am Turkish. Baofeng UV -5R BFB297 Version coded on AliExpress I Bought . There was a problem in the original program.</p> <p>But when I do not do programming with CHIRP Delivery on the relay device. I repeat ; I programmed with CHIRP and Simplex Receive and Transmit.</p> <p>But there's also just getting Relay . I can not send a relay. How do I change the firmware of the device ?</p>			
<p>Merhaba, ben türk'üm. Aliexpress üzerinden Baofeng BFB297 Versiyon kodlu UV-5R Satın aldım. Orjinal programda bir problem yoktu.</p> <p>Ama CHIRP ile programlama yaptığım zaman Röle üzerinde Gönderme yapmıyor cihaz. Tekrar ediyorum; CHIRP ile programladım ve Simpleks Alma ve Gönderme var.</p> <p>Fakat Röle de sadece alma var. Rölede gönderme yapamıyorum. Ben cihazın firmwaresini nasıl değiştiririm?</p>

Mehmet,

The firmware in these radios cannot be changed. The firmware is on a one-time programmable device. When you say "relay" are you referring to a repeater?

The [Miklor website](#) has CHIRP examples for how to program a UV-5R for use with repeater.

I got it, thank you for what to answer. I think the original Baofeng UV -5R program need from a backup file (.dat extension) in my original baofeng Rica if we can send you a replacement program you create ?
