I am interested in this working. Can I support in any way? I am a software engineer, but I don't know much about the chirp source code.

- Status changed from New to Feedback

- Chirp Version changed from 0.4.0 to daily

Sure, help is welcome!

- Target version set to chirp-daily

The FT-1D is supported - can you please test whether the selection "FT-1DR" works with the FT-1XDR?

If it doesn't, please provide a debug log, and we probably can make it work in little time.

Let us know in case you're using a European model.
