<b>Chirp Version:</b>	0.4.0		
<b>Model affected:</b>	(All models)		
<b>Subject:</b>	VV-898S Programming Range		
<b>Description</b>			
<p>Hi,</p> <p>The 898S is capable of operation up to 480mHz, however Chirp only allows up to 470mHz to be entered. The SETTINGS page does not have the ability to change the frequency range as some other radio types do. Is there a way that I can change this setting?</p> <p>I am a licensed radio amateur.</p> <p>Many thanks,</p> <p>Jeff</p>
