

CHIRP - Bug # 5099

Status:	Closed	Priority:	Normal
Author:	Ryan J	Category:	
Created:	08/24/2017	Assignee:	
Updated:	03/02/2020	Due date:	
Chirp Version:	daily		
Model affected:	(All models)		
Platform:	Windows		
Subject:	Code Cleanup patch		
Description			
<p>Hey there,</p> <p>I just inherited a pile of radios and started playing with CHIRP. I noticed that some of the code style is showing it's age and I went ahead and did a general cleanup. The only thing preventing this from running on Python3 is the use of unicode() in repeaterbook.py, platform.py and pyPEG.py. I decided to take a break and show the work I've done to make sure this is desired.</p> <p>I am attaching a patch file here but did the work on a Github mirror of the code (https://github.com/Cabalist/chirp) I know you all use mercury and not Github but I couldn't find a way to open a pull request here. Let me know if you have any questions or even if this is wanted.</p> <p>Thanks! I really appreciate that this exists. :)</p>

- Status changed from New to Feedback

This [CHIRP Development Process](#) page is pretty much what I have been referring to since 2012.

Hi Ryan, I hope you have subscribed to the developers email list since. If you haven't, please check the Wiki here as well: [\[\[Developers\]\]](#).

Let us know whether you would like to keep the ticket open until your patches make it, or whether we can close it. Be aware that there are efforts underway to make things run on Python 3 already.
