Updated:	05/01/2020	Due date:	
Chirp Version:	daily		
Model affected:	BF888s		
Subject:	BF888s not letting me input out of range frequencies		
Description	<p>I've been trying to put out of band frequencies in my bf888s since they can now take vhf frequencies. Chirp does not allow me to do that sadly... Can someone help me with this issue? I need to be able to program them by tonight, as I'm going somewhere with this radio and have no access to a PC.</p>

- Status changed from New to Feedback
- Priority changed from Immediate to Normal
- Target version set to chirp-daily

Have you been able to resolve this on your own since you submitted this?

Have you tried with a recent version?
