### History

#### #1 - 11/22/2017 02:32 pm - Cindy Alvarez

I have the same problem with all Excel versions, even 200x.  
check in a Notepad or other text viewer if each line ends in multiple commas just like this:

NFM,12.50,,,,, (lines ending like this work for me)

and the values shouldn't be surrounded by "

"NFM" - I get a unknown file

NFM - works for me

#### #2 - 11/22/2017 05:25 pm - Tom Hayward

- Status changed from New to Feedback

There's not enough information here to reproduce the issue. Please attach the file here.

#### #3 - 01/23/2020 05:16 pm - Bernhard Hailer

- Target version set to chirp-daily

- Chirp Version changed from 0.4.0 to daily

- Platform changed from Windows to All

Please let us know whether you were able to resolve the issue.

Also, please refer to Wiki: [\[\[CSV HowTo\]\]](#) for further help.

#### #4 - 03/04/2020 03:00 pm - Bernhard Hailer

- Status changed from Feedback to Closed

- Model affected changed from (All models) to unknown
