

CHIRP - Bug # 5553

Status:	Closed	Priority:	Normal
Author:	David Piontek	Category:	
Created:	02/04/2018	Assignee:	
Updated:	09/10/2020	Due date:	
Chirp Version:	daily		
Model affected:	Wouxun KG-UV8D Plus		
Platform:	Windows		
Subject:	Wouxun KG-UV8D Plus - settings blank		
Description			
<p>After downloading image from radio, selecting Settings tab displays blank page, no settings shown at all. Settings are listed in the matrix as supported for this radio, and the test report for today's daily build shows it passed, but it is completely blank. I tried downloading several times to rule out a spurious data transfer issue, but it was the same every time.</p>			

History

#1 - 03/04/2020 04:42 pm - Bernhard Hailer

- Status changed from New to Feedback
- Target version set to chirp-daily
- Model affected changed from (All models) to Wouxun KG-UV8D Plus

Have you been able to resolve this on your own since you submitted this?

Have you tried with a recent version since you submitted this?

If you haven't, and if you're still having this issue, please refer to the Wiki "[[How To Report Issues]]" and provide a debug log. Thanks!

#2 - 09/10/2020 08:13 pm - Bernhard Hailer

- Status changed from Feedback to Closed

Blank settings pages are usually cause by having programmed an invalid value into it. Do you have the original image downloaded from this radio the first time you got it? Try to upload it.

Closed, no more feedback by submitter.
