<b>Subject:</b>	IC-91A Unable to communicate		
<b>Description</b>			
<p>Hello,</p> <p>I've got an Icom IC-91A handheld that I cannot get to talk to CHIRP. I am using a cable that works successfully with an Icom IC-208H in CHIRP with the Prolific driver. I've attached a screenshot of the errors and the log file. Thanks for your help.</p>
