

## CHIRP - Bug # 5735

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Mike O'Connor	<b>Category:</b>	
<b>Created:</b>	04/18/2018	<b>Assignee:</b>	
<b>Updated:</b>	03/06/2020	<b>Due date:</b>	
<b>Chirp Version:</b>	daily		
<b>Model affected:</b>	(All models)		
<b>Platform:</b>	Windows		
<b>Subject:</b>	Chirp not starting		
<b>Description</b>			
I installed a new battery in my laptop 10 day ago and it shut off after 30 min. ever since then Chirp will not run, it will not even start up. I have uninstalled and reinstalled with no luck. I have also tried using the zip version with no luck.			

### History

- Status changed from New to Feedback

My guess is your chirp.config file has become corrupt (it happens a lot with Windows 10). Rename it and CHIRP will create a new one.

If this allows CHIRP to start, please attach the corrupt chirp.config file to this issue. Maybe someone can update CHIRP to detect a corrupt chirp.config file and automatically rename/replace it.

Note: The chirp.config file is found in the same location as the debug.log file.

#### #2 - 04/28/2018 04:51 am - Mike O'Connor

- File bad.chirp.config added

Jim

Thanks, this worked. I did open the bad config file but it showed nothing, which may have been the problem. I did attach it just in case someone else knows how to read it.

#### #3 - 03/06/2020 02:17 pm - Bernhard Hailer

- Status changed from Feedback to Closed

- Assignee deleted (Mike O'Connor)

- Target version set to chirp-daily

Resolved.
