Chirp Version:	daily		
Equipment Loan Offered:	No		
Subject:	KG-UV6D - 4m / 2m		
Description	<p>There is a 4m / 2m Version of the KG-UV6D. Chirp does not detect this, and says Frequency is out of range. Also mass changing values like Power is erroneous while manually forcing the right frequencies.</p> <p>Please add a detection or at least a feature to choose the Band type of your radio.</p> <p>by the way: add favorites if you have more radios and dont want to scroll all the radios in menu every time.</p>
