History

#1 - 09/03/2018 01:27 pm - Jay Moss

the software will not let me download the 220 repeaters from the repeaterbook. It tells me the freq is out of supported range. but I can manually punch it in and the 220 side transmit fine.

#2 - 01/12/2020 07:08 pm - Bernhard Hailer

- Status changed from New to Feedback
- Chirp Version changed from 0.4.0 to daily

Try using Radioddity UV-5RX3 setting in Chirp.

#3 - 05/10/2020 07:14 pm - Bernhard Hailer
