

CHIRP - Feature # 6091

Status:	New	Priority:	Normal
Author:	Klaus Ruebsam	Category:	
Created:	09/07/2018	Assignee:	
Updated:	05/10/2020	Due date:	
Chirp Version:	daily		
Model affected:	(All models)		
Subject:	Support for USB based devices (without USB to serial converter inside the cable or even the radio)		
Description			
As more and more radio manufacturer shift over from serial to some sort of USB-protocol, I wonder if there are any plans to support USB devices in the near future? libusb might be the proper library to be used therefor.

Help. I have Windows 7 laptop with USB port and BTECH USB data cable and Chirp (2/21/2019) cannot find a port.
What do I do to get it to recognize the USB BTECH connection?
