

CHIRP - Bug # 6287

Status:	Closed	Priority:	Normal
Author:	Saroj Gilbert	Category:	
Created:	12/08/2018	Assignee:	
Updated:	09/15/2020	Due date:	
Chirp Version:	daily		
Model affected:	(All models)		
Platform:	Windows		
Subject:	I need help installng		
Description	<p>I'm trying to install the 2018-12-05 version fine on my tower running W10; previous CHIRP install was 2018-06-11. I get an "Error opening file for writing" error.</p> <p>What I've tried:</p> <ul style="list-style-type: none">- I've changed permissions to provide full control on the folder as well as individual files.- I've shared the folder <p>I finally renamed folder and reinstalled CHIRP as a new install which seems to be working although I haven't really put it to the test yet.</p> <p>re: filling out the fields for this issue -</p> <ul style="list-style-type: none">- What is "Target version"?- How do I designate the version release date for a "daily" version?- What is a "Model"?

I am having the same problem. Error message after download...then try to install. Says it can not install.

#2 - 05/11/2020 10:18 pm - Bernhard Hailer

- Status changed from New to Feedback
- Target version set to chirp-daily

Sorry, but these bug reports are too skinny, we need details.

What is the file it can't write? Is that file perhaps existing and read-only? Did you close Chirp before attempting to install a new version?

Have you been able to resolve this on your own since you submitted this?

This is actually a question best asked on the [mailing list](#).

You might get (much) quicker feedback there.

Also, #6295 has some feedback which might be helpful.
