Description			
THIS IS NOT A BUG			
I just didn't know how else to relay this to you. The QYT 5800 works when programming as QYT8900D with one change to the driver.			
On the 8900D driver, I had to change out the ID for it to work with Chirp			
1. KT8900D (dual band) KT8900D_fp1 = "VCB222" #<-----THIS ONE IS THE QYT 5800 KT8900D_fp = "VC8632"			
Please update the driver so others don't have to spend the 2 hours I did figuring it out.			
73!
