Model affected:	BTECH UV-5X3		
Platform:	All		
Subject:	Chirps not saving Frequency Splits		
Description			
<p>Chirps not saving Frequency Splits. When programmed, I manually enter the frequency for the \pm split for my 2 meter channels for repeaters. Chirps is not saving that info in the latest version and it loses all my splits. Ive also noticed other missing settings in other parts of the Application.</p> <p>Im using a BTECH 5X3 and I tested it with both Mac and Linux Software, same result</p> <p>Im attaching an .IMG file of an example</p>
