Not sure why the info shows "NO" to Equipment Loan Offer. I did, in fact, offer to ship my radio to help with the development of support for this model. Again, thank you for your consideration.

- Status changed from New to Closed
- Target version set to chirp-daily
- Equipment Loan Offered changed from No to Yes

Already requested, please see #4851. If you're still willing to offer your equipment as a loaner, please post there. Thanks!

I am more than happy to send in my radio, or have a new one shipped to you to get this radio supported! I can be reached at gmckain1s@gmail.com.
