

## CHIRP - Bug # 6863

<b>Status:</b>	Feedback	<b>Priority:</b>	Normal
<b>Author:</b>	Mike Carrington	<b>Category:</b>	
<b>Created:</b>	06/15/2019	<b>Assignee:</b>	
<b>Updated:</b>	05/14/2020	<b>Due date:</b>	
<b>Chirp Version:</b>	daily		
<b>Model affected:</b>	Baofeng BF-F8HP		
<b>Platform:</b>	Windows		
<b>Subject:</b>	Can't program Tone		
<b>Description</b>			
<p>I'm trying to program a BF-F8-HP. I successfully entered a lot of information a few weeks ago but I'm trying to add frequency = 442.5000, Tone = 88.5, Duplex = +, FM, High. Everything goes fine except the Tone frequency. I can add the 88.5 but when I go to the next line to program another repeater frequency (at 443.850000 with the same Tone frequency) the 88.5 disappears. And I have the same problem with the second, 443.85 repeater. I'm durned if I can figure out what I'm doing wrong.</p> <p>Some help would be appreciated. File is attached.</p> <p>Mike</p>			

### History

#### #1 - 05/14/2020 11:23 pm - Bernhard Hailer

- Status changed from New to Feedback
- Target version set to chirp-daily
- Model affected changed from (All models) to Baofeng BF-F8HP

Have you been able to resolve this on your own since you submitted this? Is it still an issue with more recent versions?
