<b>Updated:</b>	09/29/2020	<b>Due date:</b>	
<b>Chirp Version:</b>	daily		
<b>Model affected:</b>	Yaesu VX-6		
<b>Subject:</b>	Yaesu VX-6R alpha vs frequency display		
<b>Description</b>	<p>The VX-6R memories each contain a field that specifies weather or not that channel alpha name or actual frequency is displayed.</p> <p>The Chirp UI does not let you specify this anywhere in the UI nor in the CSV format.</p> <p>Thus you always get alpha only. (Personally I hate alpha, and want to see the frequencies.)</p> <p>Not a major problem. Just an annoyance.</p>
