

CHIRP - Bug # 7611

Status:	Closed	Priority:	Normal
Author:	Lorenzo Rossi	Category:	
Created:	01/26/2020	Assignee:	Rick DeWitt
Updated:	02/18/2021	Due date:	
Chirp Version:	daily		
Model affected:	Zastone Z-218 (Baojie BJ-218)		
Platform:	Windows		
Subject:	Zastone Z-218 (Baojie BJ-218) - problem for modifying ANI_ID (individual code)		
Description	<p>starting with the consideration that Zastone Z-218 is a sort of clone of Baojie BJ-218 and using Chirp version Daily-20200107, I programmed Z-218 setting Chirp to Baojie BJ-218 option.</p> <p>Programming of memory channels (read / write) is all ok, but I can't change the ANI_ID (individual code, menu 32); if I try to open Settings on the left side of Chirp I get a blank window (no fields and consequently no data).</p>

- Assignee set to Rick DeWitt
- Target version set to chirp-daily

Asking for debug log; looks like a setting read failure...

#2 - 03/20/2020 12:43 pm - Tony Fuller

If you attache the IMG file here I can also take a look.

#3 - 03/21/2020 07:52 pm - Bernhard Hailer

- Status changed from New to Feedback
- Model affected changed from (All models) to Zastone Z-218 (Baojie BJ-218)

Please see the two previous posts.

See Wiki "[[How To Report Issues]]" about how to provide a debug log. Thanks!

#4 - 04/20/2020 06:01 pm - Bernhard Hailer

- Status changed from Feedback to Closed

No more feedback by submitter.

#5 - 02/18/2021 12:54 pm - ADILSON MATOS

Help!

I have a Zastone radio, the Z218. I couldn't find his programming software anywhere. So, I'm trying to use the Chip, only this suggested version is giving an error in the installation.

#6 - 02/18/2021 04:29 pm - Bernhard Hailer

Adilson, please read the previous comments and provide a debug log. Thank you!

#7 - 02/18/2021 04:32 pm - Bernhard Hailer

Adilson, also please be advised that this ticket is not about the issue you have.

Best idea would actually be to ask on the [mailing list](#) instead.
