| Chirp Version: | daily | | |
| Model affected: | Baofeng BF-F8HP | | |
| Platform: | MacOS | | |
| Subject: | Chirp Crashes - Contacting as per Baofeng tech support | | |
| Description | <p>Hello I am contacting you after speaking with Baofeng tech support regarding installation of software.</p> <p>First, I am on a Mac using Mac OS High Sierra version 10.13.6</p> <p>I followed the directions on the Quick Start Users Guide that came with the cable. Since it did not automatically install the drivers needed, I followed the directions and manually added them. I then downloaded the latest build yesterday from chirp from and installed it.</p> <p>I still have no luck. As you can see Chirp crashes per the photo below. I hope you can help me.</p> <p>Thank you!</p> | | |
