

CHIRP - New Model # 8953

Status:	New	Priority:	Normal
Author:	Robert Stannard	Category:	
Created:	04/02/2021	Assignee:	
Updated:	07/28/2021	Due date:	
Chirp Version:	daily		
Equipment Loan Offered:	No		
Subject:	Anytone AT-779UV		
Description	<p>I have just purchased a new Anytone AT-779UV and I would like to program this using Chirp. I don't have a spare to loan, but I am happy to try things where I can. Hopefully it is close to the AT-778UV. The models seem similar apart from the power outputs.</p> <p>https://simonthewizard.com/2017/06/07/anytone-at-779uv-at-778uv/</p> <p>Best Regards, Rob</p>		

History

From what I have recently read, the Retevis RA25 is also the same radio.

*Best regards,
Robert*

I've requested an RA25 from my contact at Retevis. I'm waiting to see if she honors my request.
