Description	<p>Hello, I recently purchased 4pcs of Retevis RB-85. Looks like a nice radio for home and commercial use. Here is the product page: https://www.retevis.com/rb85-intelligent-noise-reduction-high-power-uhf-business-radios On the product page, you also can get the original programming software, but CHIRP support would be nice as the original software is not very functional. 73, Ondrej, OK2TOP</p>
