

CHIRP - Bug # 9483

Status:	Closed	Priority:	Normal
Author:	Jerry Kuhn	Category:	
Created:	10/25/2021	Assignee:	Jim Unroe
Updated:	11/04/2021	Due date:	
Chirp Version:	daily		
Model affected:	BF-A58S		
Platform:	All		
Subject:	BF-A58S has a six character limit, but capable of seven characters.		
Description	Very minor improvement could be had for the Baofeng BF-A58S by allowing seven characters for DTMF tags instead of only six.

[BF-A58S] Support 7 Character Channel Names in Baofeng BF-A58S

This patch adds support for 7 character channel names.

fixes #9483

History

#1 - 10/25/2021 01:37 am - Jerry Kuhn

This is more of a feature request with low priority than it is a "bug". I should have selected such.

#2 - 10/25/2021 09:52 am - Jim Unroe

- Status changed from New to In Progress
- Assignee set to Jim Unroe
- Target version set to chirp-daily
- Model affected changed from (All models) to BF-A58S
- Platform changed from Windows to All

I am assuming that instead of "DTMF tags" you meant "alpha tags", right? I have confirmed that the channel names can be increased from 6 characters to 7 characters so I will create a patch to support this. If this isn't what you meant, then explain what you meaning by "DTMF tags".

Jim KC9HI

#3 - 10/25/2021 09:54 am - Jim Unroe

- Status changed from In Progress to Resolved
- % Done changed from 0 to 100

Patch submitted. Support will be in the next CHIRP daily build following acceptance.

Jim KC9HI

Wow, thanks Jim!

Yeah, I was just going through a number of HT's and found a couple small things like this. I noticed that I put seven characters into the DTMF fields, even though it only accepts six in chirp. I forget the method I used.

Have a good one!

Jim KC9HI

(Yeah, I meant alphanumerical tags. It was very late last night, this morning, when I posted and wasn't clear myself.)

Wow, thanks Jim!
