Description			
This radio has been out a long time now, it's a clone of the TYT MD380 and several other radios, none of which are supported in Chirp, please can we get this on the supported list.			

History

#1 - 11/07/2021 12:37 pm - Bernhard Hailer

- Status changed from New to Feedback
- Target version set to chirp-daily

... but it's also a DMR radio which currently can't be supported by Chirp. The infrastructure for DMR has yet to be designed.
